

FLEXVISION™ CAMERA SUITE

Next-Level Safety: Comprehensive Monitoring

H&P's FlexVision™ suite is a state-of-the-art, data-driven camera system designed to optimize rig operations. Featuring strategically placed cameras and a dedicated Starlink connection, FlexVision cameras enable seamless recording and remote viewing. This innovative solution enhances safety and efficiency, streamlining operations. FlexVision Remote Dashboard delivers real-time, allowing drillers, rig managers, and engineers to monitor multiple rigs simultaneously. By reinforcing training and safety protocols, FlexVision boosts workforce skills and job satisfaction, demonstrating H&P's commitment to safety and excellence in the industry.

The FlexVision™ Camera Advantage

Comprehensive Coverage

With strategically placed cameras, FlexVision helps ensure that all critical areas of the rig are continuously monitored, enhancing safety and operational oversight. With customizable permissions, you can monitor production and respond quickly from a simple mobile app or web browser.

Streamlined Operations

The standardized camera system simplifies installation and usage, improving efficiency and safety protocols.

FlexVision Camera

Real-Time and Recorded Access

Users can access live feeds via the Remote Dashboard, enabling data-driven decision-making and facilitating quick responses to any incidents. Instant alerts help with built-in video verification any time an alarm event is triggered.

➤ **ACTIVELY C.A.R.E.®**

Improved HSE Training & Compliance

FlexVision cameras support workforce training and adherence to regulations by providing clear guidelines and best practices, boosting workforce skills and job satisfaction.

Standout Features

Standardized Camera System

FlexVision cameras offer standardized and flexible installation options for the rig fleet to ensure cameras are deployed effectively fleet wide.

Camera Coverage and Remote Viewing Capabilities

With strategically positioned cameras, FlexVision provides comprehensive coverage, helping ensure that all critical areas are continuously monitored. If more cameras are desired, additional packages are available, each with additional cameras and the FlexVision remote dashboard, which features enhanced capabilities for people and vehicle identification.

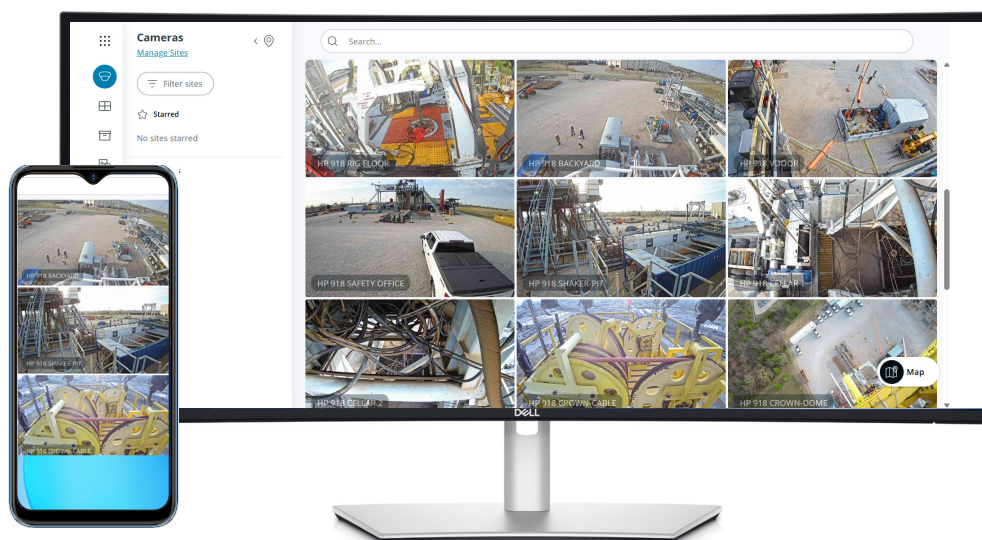

Access to Real-Time and Recorded Footage*

The system provides both live and recorded video feeds, enabling users to access essential data and insights at any time, supporting better decision-making.

*Recorded footage is only available by request to H&P.

Drives Operational and HSE Excellence

FlexVision cameras can enhance the overall value of the organization by improving safety and operational efficiency.
